

After reading our book 'The Tiny Seed.' We think about where the seed landed and compare the places, with different real places in the world!

Mount Everest

The Great Barrier Reef

The Sahara Desert

CHALLENGE! Can you find out where Mount Everest, The Great Barrier Reef and The Sahara Desert are in the world?

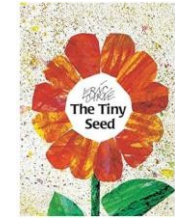

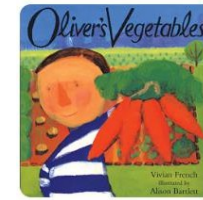

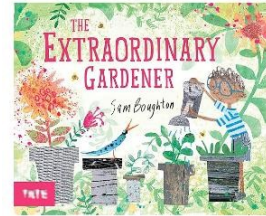

We are also going to be looking at the shapes and sizes of different plants and flowers.

At home, can you grow something in your garden or perhaps on your windowsill?

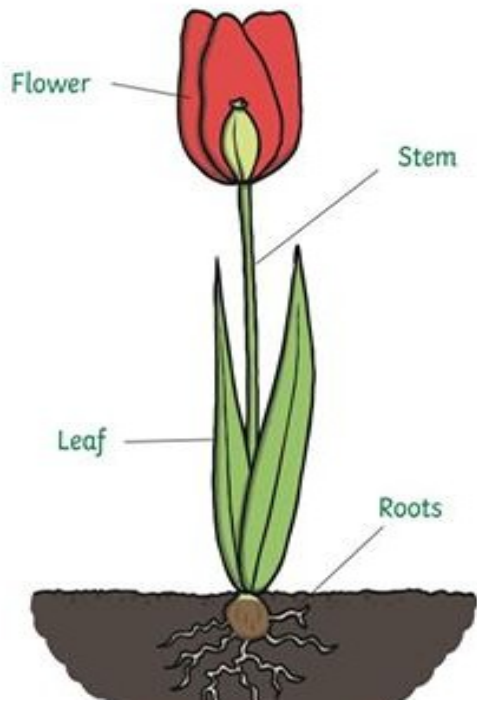

In Understanding The World, we are going to be learning about different parts of a plant and thinking about how plants grow. In the school garden, we will be planting seeds and watching them grow!

These are our main texts we will be sharing. We will also be looking at lots of non-fiction books and learning about plants that grow in other countries.

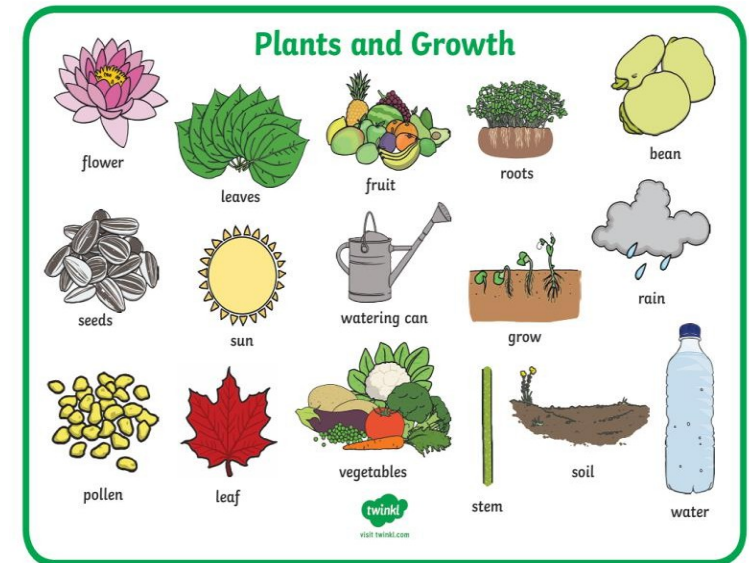

This is some of the vocabulary we will be learning.

Parts of a Plant

Growth and Growing

CHALLENGE! Can you find out why bees are so special and how they help our food to grow?

QUESTION: What do plants need to be able to grow?
