Dear Parents and Carers,

Re: Potential School Closure on Friday, March 15th

I am writing to inform you of a situation that has arisen which may necessitate the closure of our school on Friday, March 15th. Today, we received notification from the National Grid indicating that there will be a power outage affecting our school on that date.

This outage, unfortunately, means that we will not have access to essential services such as our fire alarm system, telephones, adequate lighting and the ability to provide hot meals for our students. Ensuring the safety and well-being of our students and staff is our top priority, and without these critical services, we cannot safely operate the school.

Regrettably, the duration of this power interruption is expected to be significant, and we cannot guarantee when normal operations will resume. We have taken steps to explore the possibility of securing an alternate power source, and an engineer will be visiting our site to assess the feasibility of this solution this Friday.

In the meantime, please begin making alternative childcare arrangements for Friday March 15th, in the event that we are unable to open the school. We understand that this may cause inconvenience for many of you, and we sincerely apologise for any disruption this may cause to your plans. Unfortunately, this is completely out of our hands as National Grid have the statutory right to enforce a power outage.

We will keep you updated on any developments regarding the situation and will provide you with timely information regarding the status of the school closure once we know more.

Thank you for your understanding and cooperation in this matter.

Yours sincerely,

Mr Gromski
